

The Teaching with Sakai Innovation Award is sponsored by the IBM Corporation.

2008 Winners

First Place

Dr. Aileen Y Huang-Saad
 Course: Biomedical Engineering Graduate Innovative Design
 University of Michigan

Second Place

Mr. Salim Nakhjavani
 Course: International Law
 University of Cape Town, South Africa

Honorable Mention

Dr. Fred T. Hofstetter
 Course: Web Design Portal
 University of Delaware

Honorable Mention

Mr. Michael Burns
 Course: Advanced Placement English Literature and Language
 Minisink Valley Central School District, New York

The award is being sponsored by IBM Corporation, with additional support from the Sakai Foundation. It was

designed to promote faculty best practices and innovation in using Sakai for teaching and learning. Although there are many ways in which technology can make the teaching process more efficient or productive, innovative applications of both pedagogy and technology can truly transform the educational experience.

The intent of this award is to highlight examples of educational applications of Sakai which fall into this innovative or transformative category. 2009 TWSIA during the Virginia Tech Regional Sakai Conference in November <http://openedpractices.org/twsia>

The Sakai Foundation is a member-based, non-profit 501(c)(3) corporation engaged in the collaborative design, development and distribution of open-source software for education, research and related scholarly activities <http://sakaiproject.org/portal>
