Pre-Walkthrough Setup

This section documents how to create the necessary content to perform the above walkthrough script. It is not part of the walkthrough itself. It is expected that a person with the ability to log into the QA server with admin rights will create this content before the walkthrough takes place.

Login as Admin

Create Two Users:

- argins1
- argstu1

Create two Courses

- First Course:
 - Title: AR G101
 - Add a mix of tools including the "Glossary" tool
 - Add user "argins1" as a participant with the "instructor" role
 - Add user "argstu1" as a participant with the "student" role
- Second Course:
 - Title: AR G102
 - Add a mix of tools including the "Glossary" tool
 - Add user "argins1" as a participant with the "instructor" role
 - Add user "argstu1" as a participant with the "student" role

Logout from the Admin Account

Login as "argins1"

Go to the "AR G101" Course Site and Add Glossary Terms

- Use the "Import" feature to import the file xxxxxx.zip (attached)

Logout

Prepare Tester's Computer

- Download the attached file "xxxxxx.zip" and place it on the tester's computer so they can use it in the instructor persona part of the walkthrough script to create glossary entries.
