

2011-03-09 Video Recording Meeting

Subject:

Opencast Matterhorn and the Sakai LA Conference

Participants:

Ian Dolphin, Mathieu Plourde, Jenn Cummings, Michelle Ziegmann.

EtherPad: <http://etherpad.osuosl.org/xynJTTsa7w>

General notes:

- We will not record everything
- Getting the most out of the conference
- Shipping costs (extra suitcase)
- Social engineering for wireless connectivity?
- Debbie is about to do a site visit
 - Check for access points
- Find out what the language was at the ELI conference about the use of the wireless

Hardware requirements

- Capture agent 3X (U. of Sask) - Others could bring agents as well
 - Establish how many breakout rooms we have, how many tracks (5 or 6)?
- We have to provide the camera
 - High-end - Maned OR
 - HD Webcams with wide angle (Ja-Sig plans on buying or renting)
 - Microphones (snowball mic) - See what's recommended
- Better if they are hardwired for fast processing?
- Can be connected later

Software requirements

- Server at U. Nebraska, scheduled from there
 - Will take the recording and process it.

Staffing requirements

- Config is key, probably better to leave it in one room
- 3 people to set things up, shifts to make sure everything works
- Mathieu can help as well

Post-Editing and Publication

- Matterhorn processing, publishing
 - Decide on hosting
 - Overlap between Sakai and Opencast schools?

Live Streaming

- Decide what needs to be streamed
 - Wired connections for the computers that are streamed
