

05-06-10 Virtual Working Session

Draft Agenda

Status of Lens and Facet Definitions

1. Assessment/Evaluation
 - a. Are the terms "assessment/evaluation" appropriate?
 - b. Lens: needs to be refined/some discussion, needs to be broadened (Lynn). Cite more formally if taken from Wikipedia.
 - c. Facets: Discuss if we need to add new facets, refine current definitions, clean up current list
 - d. Review and consider John Norman's manifesto on grading (<http://collab.sakaiproject.org/pipermail/management/2009-October/000212.html>)
 - e. Which place in the list should this be in?
2. Online Learning Space Design
 - a. Mostly done, light review and consensus discussion
3. Social Interaction
 - a. Lens: Need to synthesize the definitions that are there now (three paragraph), finalize and consensus
 - b. Facets: Seem fairly good, light review and consensus
4. **Content Creation and Use (START?)**
 - a. Lens: Fairly good definition at this point, needs light review and consensus
 - b. **Facets: Just a raw list right now, need to refine list and develop definitions**
5. User Autonomy
 - a. Lens: Light review and consensus needed.
 - b. Facet: Need to consider "dashboard and offline" and if they should be facets or moved elsewhere, need to agree on list and refine definition
6. **Learning Activities**
 - a. **Lens: Good content but is long and need to be refined significantly. Consensus agreement needed.**
 - b. Facets: Refine facet definitions (more concise), cite wikipedia if we keep the reference.
7. Openness
 - a. Lens: Need to review and refine definition (what is there has not been reviewed yet)
 - b. Facets: Need to review/add and create definitions.

To Do:

1. Agree on format for facets
 - a. Do we want to have an introductory paragraph or is this redundant with the lens definition?
 - b. Length of definitions? - concise is best???
2. Do we want to keep the "Design Concept" column
3. Reorder based on prioritization
4. Create a new document that only has the Learning Lenses
 - a. Clean up different lens versions
 - b. Lock it from public editing
5. Uniform formatting
