| <b>QA Server:</b>                                   | Sakacle1-trunk.uits.indiana.edu        |
| <b>QA Server Environment:</b><br>(Copy from footer) |  |
| <b>Evaluation Participants:</b>                     | Walt Stover                            |
| <b>Evaluation Complete:</b> (Yes / No):             | Yes                                    |

## Accessibility Issues and Recommended Solutions

| Task / Subject              | Results / Issue | Recommendations | Priority | JIRAs |
|-----------------------------|-----------------|-----------------|----------|-------|
| Start of Walkthrough Script | No problems     |                 |          |       |
| Read Syllabus Info          | No problems     |                 |          |       |
| Print Syllabus              | No problems     |                 |          |       |
|                             |                 |                 |          |       |
|                             |                 |                 |          |       |
|                             |                 |                 |          |       |
|                             |                 |                 |          |       |
|                             |                 |                 |          |       |

## Priority Definitions

- Critical: Issue will keep some/all users from being able to use this tool.
- Major: Issue will cause significant difficulty to some/all users and should be revised.
- Minor: Tool can be used successfully, but functionality will be significantly improved by fixing issue.
- Trivial: Indicates that this issue has a relatively minor impact.
