

# Migration

## Migration

This page is aimed at those who are investigating migrating to Sakai. You will find information and tools to help you move your content into Sakai as well as case-studies from institutions that have performed migrations to Sakai and shared their experiences.

## Vendor-specific migration

Various tools and utilities have been developed to migrate courses and content from other LMS/VRE/format's to Sakai. Choose your vendor below:

- [Blackboard Migration](#)
- [WebCT Migration](#)
- [Respondus Migration](#)
- [Moodle Migration](#)

## Real-world experiences

Who's done migrations? What worked? What didn't?

### Migrating from WebCT

- [WebCT to Sakai Migration BOF](#)
- [WebCT Migration - University of Cape Town](#)
- [Unicon Assists Georgia Tech Switch to Sakai from WebCT](#)
- [WEBCT Gap Analysis - Rutgers](#)
- University of Wyoming: See our conference presentation, [Early Experiences](#), for analysis of export and import options with particular attention to exam questions.

## Institutions planning/completed migrations

View the [list of institutions that are planning or have completed migrations to Sakai](#). Feel free to add your institution to the list.

## Miscellaneous information

The following is a collection of information which may assist you in your migration and content import needs:

[The Sakai Import API](#)
