

Deep Regression Scripts

Deep Regression Scripts

#	Column Name	Description
1	Step	The scripts have sections and the steps are numbered below each section
2	Role	Role the tester should be in when completing the step
3	Action	Action the tester needs to take
4	Expected Result	The expected result after taking the action
5	Screenshots to compare with	If the tester followed the steps, the results should be as shown in the screenshots
6	Tester Information	Please enter your name, the date, the server tag, server and browser information here. The tag is found at the bottom of the page after you log into a server. Example: Server: http://nightly2.sakaiproject.org:8082/ Tag: Sakai Revision: 113643
7	Status	y = success, n = failed Status of the action taken - did you receive the expected result
8	Comments	If you did not receive the expected result and created a Jira, enter the Jira ID and description. If something with the tool changed, note your observations here.
9 & 10		Important information regarding testing of this tool
11	Verify	Overview of what the following steps in the section will test
12		Supporting materials for the test
