Evaluation Complete: (Yes / No):	No

Accessibility Issues and Recommended Solutions

Task / Subject	Results / Issue	Recommendations	Priority	JIRAs
Log in	No problems			
Create a new site	No problems			
Select dept. and section	On the select a section page, I was unable to arrow through the sections list box. I tried the short cuts for opening a list box or drop down menu but it took me back to the main menu. The help for worksite setup was not helpful as well. The link for finding the course or section didn't work.			
Select language, write descriptions, select theme, add contact info	No problems			
Specify tools	No problems			
Add lesson tools instances	Wasn't prompted to continue to get to the next page.			
Confirm settings and request site.	No problems			
Logout	No problems			

Priority Definitions

- Critical: Issue will keep some/all users from being able to use this tool.
- Major: Issue will cause significant difficulty to some/all users and should be revised.
- Minor: Tool can be used successfully, but functionality will be significantly improved by fixing issue.
- Trivial: Indicates that this issue has a relatively minor impact.
