

Community Meetings

Feel free to join any of the open community meetings and/or events listed on the Sakai Project or Apereo Project Calendars below. Most working groups have regular meeting times, and there are also a number of ad hoc meetings and events. (Meetings are typically conducted online via [Big Blue Button](#), courtesy of [Blindside Networks](#) (an Apereo commercial affiliate).)

There are also several community conferences and events held each year, providing additional opportunities to connect with other Sakai users.
