

# Wednesday-SCORM and IMS CC (BOF)

[List of Session Wiki Pages](#) | [Full Conference Schedule](#)

## SCORM and IMS Common Cartridge Standards in Sakai

<b>Description</b>	As more and more diverse ways of using Sakai emerge, one need that clearly popped up is the fact that Sakai has a hard time dealing with standards. This BOF is a way for people involved with SCORM players to share practices and develop a strategy.
<b>Lead</b>	<a href="#">Mathieu Plourde</a> , University of Delaware
<b>Day, Time, Location</b>	Wednesday, 2:10 to 3:00 p.m., BOF room 1 (TBD) <b>(NEW TIME)</b>
<b>Track</b>	Multiple Audiences

### Attendees' List

- [Mathieu Plourde](#)(mathieu@udel.edu)
- [Mark J. Norton](#)(markjnorton@earthlink.net)
- Kirk Alexander (kdalex@ucdavis.edu)
- Robert G erin-Lajoie (robert.gerin-lajoie@umontreal.ca)
- Rich Pirozzi (rpirozzi@wiley.com)
- Jeff Kahn (jeffkahn@verbeniconsulting.com)
- Chris Davia (chrisdavia@us.ibm.com)
- Charles Severance (csev@umich.edu)
- Adam Hauerwas (hauerwas@providence.edu)
- Terry O'Heron (tno1@psu.edu)
- Jason Hollins (jason.hollins@pearson.com)
- Margaret Ricci (mricci@indiana.edu)
- SRI [?](#) (ahs@us.ibm.com)
- [Drew Podwal](#) (will be in NY can I attend remotely? - No, sorry, will keep you in the loop)

### 1. Current SCORM/IMS CC Engines and Initiatives

- UC Davis
- CRIM
- IBM
- EDIA
- Icodeon (rSmart)
- Rustici

### 2. Current Sakai Tools That Can/Should Integrate With Those Engines

- Gradebook
- Samigo
- Mneme
- Assignments
- Melete
- Post'Em

### 3. Third Party Tools

- SoftChalk LessonBuilder integration with Sakai - Mark Norton

### 4. Ideal Workflows and Connections

- Add a grade to the Gradebook
- Keep a log of the SCORM data (user tracking)
- Respect sequencing
- Trigger conditional release with all tools
- Embed in another page

### 5. Use Cases

- List your use cases here.

## 6. Other Links and Resources

- Mathieu's Diigo List About SCORM: <http://www.diigo.com/list/mathplourde/scorm>

## 7. Some Notes

- Icodeon's business model is to accept all different version of SCORM objects, as imperfect as they might be.
- IMS Common Cartridge is a standard that includes SCORM. A platform that supports IMS CC would still need a SCORM engine to run SCORM objects.
- IMS and ADL don't always play nice with one another.
- Angel is the perfect IMS model LMS.
- UC Davis is interested in making the SCORM Player better but has its hands full with the new Gradebook right now.
- rSmart has developed the Icodeon connector for Sakai.
