Discussion items

Two Blocker/Criticals with fixes already in Sakai 10 branch (though not verified)

<https://jira.sakaiproject.org/browse/SAK-21718>

<https://jira.sakaiproject.org/browse/SAK-24386> - but maybe

 [SAK-24427](#) - Improvements to account validator  should be a blocker since SAK-24386 is dependent on it?

Five Blocker/Criticals unresolved

<https://jira.sakaiproject.org/browse/KNL-956> - documentation blocker

<https://jira.sakaiproject.org/browse/SAK-23515> - not showing as resolved but might be incorporated or at least partially resolved by KNL-101. And there is a patch, in addition, that could be considered.

<https://jira.sakaiproject.org/browse/SAK-22786> - looks like a documentation issue

<https://jira.sakaiproject.org/browse/SAK-25664> - Patch is available for review

Can be closed?

A number made it into the branch before testing. Can ones that do not need to be merged into 2.9 be closed?
