Specification ID:	<i>OSP-SPEC-5</i>
Working Title:	<i>Aggregated View of Matrix and Portfolio</i>
Related Issue (s):	SAK-10135 , SAK-10137
Component (s):	<i>Matrix, Portfolio</i>
Confirmation Status and Date:	Status: <i>Confirmed</i> Date: <i>August, 2007</i>

Summary

The Matrix and Portfolio tools must be available within a user's workspace and contain an aggregated view of matrices/portfolios in all worksites for a particular user.

Rationale

This change was proposed to make matrices and portfolios more accessible when spread out across many worksites.

Origin

The requirement originated at the OSP/Sakai 2.5 Planning Meeting in May 2007 (Ann Arbor).

Community Acceptance

Discussed in weekly conference calls, documented in minutes and JIRA.

Behavior

- MyWorkspace Portfolio tool aggregates portfolios for all worksites. All portfolios that are shared or owned will appear in My Workspace.
- Portfolio permissions are based on originating worksite.
- Users are allowed to add portfolios within the MyWorkspace worksite.
- MyWorkspace Matrix tool aggregates matrices for all worksites. All matrices defined in a user's member worksite will appear in My Workspace. tool.
- Matrix permissions are based on originating worksite.
- Users are not allowed to add matrices within the MyWorkspace worksite.

Interaction
