Contrib Tool Use from Survey Response

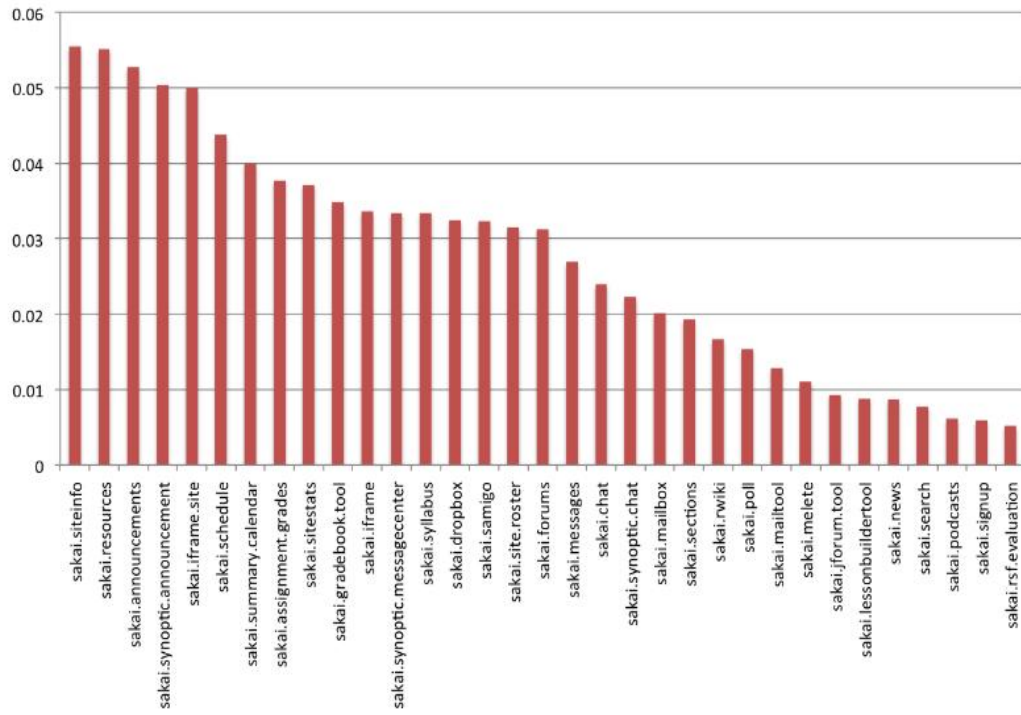

Events From SQL

- Content (Resources), Presence and User events constitute 78% of events. Chart data does not include these events.
- Chart shows top 12 tools following those three.
- Normalized each institution's data set by converting to percent of event.
- Grouped events based on prefix.
- Averaged percentage across institutions.

Tools Deployed from SQL

- Data normalized across institutions.
- Includes tools with relative percentage .5% or higher.
