

# Meeting notes - 22 August 2007

Teleconference with UNISA and UCT, 12:10pm (GMT+2).

## 1. Review meeting notes from 10 Aug 07

- Decided to add diagram created in initial meeting.
- Some clarification was done regarding the functional requirements. The detail will be in the revised document.

## 2. Project plan

- All accepted the draft project plan
- All tasks up to 22 August are completed.
- The latest version of the project plan will kept up to date on this contrib location

## 3. Discussion of features in phase 1 vs phase 2

- Copy and modification functions were moved back to phase 1

## 4. Review Page mockups

- Many changes were discussed and accepted. It will be reflected in the revised user specifications that Andrea and Francette will complete.
- The main changes were:
  - A student's name will not be displayed to other students
  - Try to use the most standardised Sakai way for the organising function
  - To simplify permissions a combined permission of 'update' will be used
  - the term 'hits' will be changed to 'views'
  - The number of hits will be displayed on the detail question page
  - Sorting options will be available. The default would be alphabetic by category and then 'recently answered' within a category

## 5. Target version of Sakai (2.3+, 2.4+ or 2.5+)

Development will be aimed at 2.5+

## 6. Next meeting

29 August - time to be finalised
