## New Testing Materials for OSP 2.9

⚠ Attention OSP Testers. A new set of scripts and instructions are now available for 2.9. Please use the new materials and scripts instead of those listed below. Testing instructions and links to the scripts are available at: [QA Testing Information for OSP](#)

✔ If you create any Jiras during testing, please enter them in the comments column.

✔ QA3-US Test Instance

We welcome testing on any of the 2.8 QA Test Servers, but OSP data structures will be refreshed regularly in [QA3-US Test Instance](#) hosted by Indiana University. This instance contains a site entitled OSP Project Site that is set up with a Matrix and a Portfolio Template. Although this site can be joined with "access" privileges by anyone, it is useful to assume the following roles for the testing process.

- To log in as an administrator/instructor, use the Kayla Foster persona (username: kfoster, password kayla).
- To log in as a student, use any of the following: Username: mdora, password: moreen, Username: njarrett, password: newton, Username: zmortimer, password: zach.
- To log in as an external evaluator, use username: cowens, password: clay.
