## Now the PMC

The TCC is now the [Sakai Project Management Committee \(PMC\)](#)  
This page and content is now historical

## Sakai CLE Technical Coordination Committee

The CLE TCC works with existing community groups and processes to provide technical direction, advice, and coordination that both nurtures and enhances the Sakai CLE ecosystem.

The principal communication mechanism for CLE TCC members is the [public sakai2-tcc mailing list](#). This list is open to non-TCC members. Occasionally, TCC meetings may be held, either in person or otherwise, but a summary of the meeting and any decisions taken will be published on list.

The CLE TCC also provides updates on its activities to the Announcements, Management, QA, and Development lists as needed.

### Current Initiatives

- 2.9+ Release Coordination [TCC 2.9 Action Items](#)
- trunk development
- [Aperio Sakai Community Governance Proposal](#)

### References

- [Sakai Jira Guidelines](#)
