Building and Integrating OpenSyllabus in Sakai

Description	This session provides an overview of OpenSyllabus' architecture. It covers functional and technical concerns faced during Sakai tools integration in OpenSyllabus. It describes how to configure and extend it, how processes (Scrum) and tools help manage the project, foster involvement and communication among developers and \"product owners\".
Presenters	Rémi Saïas - HEC Montréal Martin Montminy - HEC Montréal Yvette Lapa Dessap - HEC Montréal
Day, Time, Location	Thursday, 11:00 to 12:00 p.m., Haym Saolman
Track	Building Sakai
