

2007-05-29 Conference Call

OSP 2.5 Requirements Review:

- Aggregated View: remaining issues will be entered into JIRA
- Goal Management: remaining issues to be entered into JIRA; someone needs to develop a framework proposal for integrating goal-management with tools such as assignments

Institutional Priorities

- rSmart: Reports and others tbd
- Michigan: Aggregate views, User Interface, Portfolios
- LaGuardia: Portfolios (no development resources this cycle)
- Syracuse: Goal Management (development resources tbd)
- Indiana: tbd (2 fte developers possible)
- Saginaw Valley: Goal Management framework

Other Issues

- Sean will be following FLUID discussions, representing OSP and possibly making recommendations
- JIRA bugs need to be reviewed for OSP
- Florida has expressed interest in developing a tool for XSL similar to their XSDWeaver tool
- There will be a phone call announced to discuss the OSP training session in Amsterdam
