

# SoftChalk

SoftChalk has retained met to develop and maintain the integration software that enables content developers to publish lessons from SoftChalk LessonBuilder to a resources collection in a Sakai site. This is accomplished using a REST request processor called lbgateway. The following documents describe this software and issues related to it.

## Development Notes

- [SoftChalk Devel Notes - 2008](#) - Initial development.
- [SoftChalk Devel Notes - 2009](#) - Additional development.
- [SoftChalk Devel Notes - 2010](#) - Bug fixing, code tracing.
- [SoftChalk Devel Notes - 2011](#) - Inline Bug fix.

## Support

- [SoftChalk Bugs](#)
- [SoftChalk - To Do](#)
- [Sakai SCORM Support](#)

## Documentation:

- [SoftChalk REST API](#)
