

Sakai Project Management Committee (PMC)

Sakai Project Management Committee

The Sakai PMC works with existing community groups and processes to provide technical direction, advice, and coordination that both nurtures and enhances the Sakai ecosystem.

The principal communication mechanism for Sakai PMC members is the [public sakai-pmc mailing list \(sakai-pmc@apereo.org\)](mailto:sakai-pmc@apereo.org). This list is open to non-PMC members. Occasionally, PMC meetings may be held, either in person or otherwise, but a summary of the meeting and any decisions taken will be published on list.

The PMC also provides updates on its activities to the Announcements, QA, and Development lists as needed.

Current Initiatives

- Sakai 11.x maintenance releases and Sakai 12.
- Technical documentation to Github.
