

Sakai 12 QA Hub

Overview

The **Sakai 12 QA Hub** is the home page for the Sakai 12 QA effort.

We are testing new fixes on Master (next release version 19), to be merged back to the 12.x Maintenance Branch to prepare for our next maintenance release (12.4).

We are testing on the community server "**Trunk (master) on MySQL**". Master is the next version of Sakai (19) and where the process of applying all fixes to Sakai begins.

For questions please contact sakai-qa@apereo.org.

This Week for QA

This week for QA, we will begin focusing on the upcoming Sakai 20 release for next year. With the upcoming Sakai 20 release we will be rewriting and updating the regression scripts for all tools. Last week we finished the smoke testing for Sakai 12.7. Therefore, we will release Sakai 12.7 at some point this week. No future releases beyond 12.7 have been mentioned.

JIRAs new features in Sakai 19

<https://jira.sakaiproject.org/issues/?filter=16707>

Steps for testing

- General testing on these features are fine this week
- If you have problems with new features, comment on the JIRA or open a new JIRA

Server to use for testing

All testing this week will take place on Master - <https://trunk-mysql.nightly.sakaiproject.org/portal/>

Reporting Issues

- [JIRA Authoring 101](#) - An introduction to finding and reporting issues.

Meetings

Weekly QA Planning Calls

The QA Planning Group meets every **Tuesday from 2:00 pm - 3:00 pm, Eastern time**. This group guides the overall direction of the Sakai QA effort, creates testing materials and processes, and participates in testing. Meetings agendas and notes can be found in our [Sakai 12 QA Running Meeting Notes google doc](#). All are welcome! We meet in the QA Room in BigBlueButton:

<http://apereo.blindsidenetworks.net/apereo/>
QA Room
password: apereo

Weekly Test Fests

Join our QA "Test Fests" every **Thursday from 10am to 11 am, Eastern time!** This is an opportunity to jump into testing Sakai with the support of the QA Team and other community members. You do not need to be a functional expert to get involved! Test Fest agendas and notes can be found in our [Sakai QA Running Meeting Notes google doc](#). We begin our Test Fests in the QA Room in BigBlueButton (see above). Throughout the course of the Test Fest, we communicate using our new SakaiQA channel in Apereo's Slack instance described below. **The QA team will be available 30 minutes before Test Fest, at 9:30 am (EST), to help onboard those new to QA testing.**

Communication Channels

Sakai QA list

Join the Sakai QA list ([sakai-qa@ apereo.org](mailto:sakai-qa@apereo.org)) to keep up to date on all things QA in Sakai. Anyone can join the group here:

<https://groups.google.com/a/apereo.org/forum/#!forum/sakai-qa>

Sakai QA Slack Channel

We have a very active Sakai QA channel in Apereo's Slack instance. We use this for communicating during Test Fests and asking QA questions to the group or to individuals anytime. If someone at your institution has already joined, then you can self join at:

<https://apereo.slack.com/signup>

Otherwise send an email to sakai-qa-planners@apereo.org to have your institution's domain added for self signup. For a quick overview of Slack (along with some helpful tips n' tricks), see the following video:
