

# Course and Site Structure Patterns

## Course and Site Structure Patterns

The following are course and site structure **patterns** that have emerged from user research at several universities and their composite schools/departments. As best possible, these findings are from the **instructor/student point of view**.

### Invitation

**We invite your feedback** in the form of comments on the patterns listed below.

Also, we would like to know if other institutions have these patterns. If your institution has one of these patterns, or (better yet) had an example document you could attach or we could link to, that would be very helpful (e.g. the Stanford links)

- [1 Simple Course Pattern](#)
- [2 Large Lecture Course Patterns](#)
- [3 Cross-Listed Course Patterns](#)
- [4 Language Course Patterns](#)
- [6 Professional School Course Pattern](#)
- [5 No-Term Course Pattern](#)
