- IE 8,9,10
- Safari 4-6
- Firefox 3.5+

Unsupported:

- IE 7 and earlier
- Safari 3.2
- Firefox 3.0

Legend

Fully Supported - Extensive QA (Quality Assurance testing) performed using these browsers. Our developers use these browsers every day and test against them, and our QA team focus their efforts on testing in these browsers. Please file any bugs at jira.sakaiproject.org

Partially Supported - Limited or no QA with these browsers, but expected to work based on browser capabilities. Some features may not work 100%. We encourage you to upgrade your browser as the first step towards resolution.

Unsupported: No QA on this release using these browsers and compatibility issues are anticipated. Any bugs discovered using these browsers will not be fixed.
