

2009-10-05 Conference Call

Meeting minutes for October 5, 2009

1. Sakai/OSP 2.6 Issues and Status
 - [SAK-12914](#) Database error when importing osp matrix
 - [SAK-15958](#) Slow performance in Wizards Needs verification
 - [SAK-16785](#) Sortable columns in OSP Portfolio tool - patch on ticket
 - [SAK-16863](#) Error when saving page in Freeform Portfolio. Problem is reproducible, but not clear what the cause is. There is a workaround: save the portfolio twice. The first time you get the error, but then the second time it works. This is a problem even in institutions that don't officially use freeform portfolios, because students stumble across it.
 - [SAK-16869](#) ~~backtrace in share when a user has been deleted~~ Needs verification
 - [SAK-16871](#) osp share sends wrong password
 - [SAK-17012](#) matrix breaks when default cell title exceeds 255 characters. Fixed by IU. Chris will verify.
 - [SAK-17055](#) Matrix group filtering does not differentiate Sections from Groups. Groups and sections are implemented the same way underneath. It was proposed that we make OSP only work with groups, and then have a separate ticket with a feature request for groups and sections to be handled differently. The current behavior is causing problems for VA Tech.
2. Sakai 2.7/2.8 Development Status
 - Code Freeze November 20th. Everything in trunk on the 20th should go in. That will include IU matrix changes and UM collaborative portfolio changes, but probably not CRIM matrix changes (they are reviewing feedback on what they have done.)
 - Status Update (IU): [SAK-13838 Add Forms and Attachments User Interface Rework, Version 2](#)
 - Status Update (IU): [SAK-16693 Synchronize Portfolio Site Rosters with Associated Course Sites](#)
 - Status Update (IU): [Indiana University Matrices Enhancements](#): Status - waiting for trunk to be stable.
 - [SAK-15822](#) ~~In Matrices, "manage status for all users" only changes current user~~
 - [SAK-16261](#) ~~Make the Manage Status function in Matrices and Wizards Group Aware~~
 - Status Update (CRIM): [Finer Grained Document-Level Matrix Permissions](#) Updates
 - Status Update (UM): [Collaborative Portfolio Contributions](#)
3. Standing Agenda Updates
 - Sakai 3 Development & Content Authoring
 - [Sakai 3 ePortfolio Sakai 3 Demo October 12th](#)
 - Teaching & Learning & requirements gathering
 - Documentation & Communication
 - Moving content from <http://osportfolio.rsmart.com> to www.sakaiproject.org. Sakai Foundation will use Drupal.
4. Functional & General Issues
 - Status updates on [OSP Help Updates](#)(October review; November commit). Marist has finished. Other institutions are coming along.
