

Accessibility WG Teleconference Minutes 02-20-2014

Agenda:

- Follow-Up on Signup introduction session
- What's New for Sakai 10, my release notes so far:

Work welcoming SignUp and Roster2

New Customize Tabs re-order dialogue in Preferences.

Sakai sends the correct language property and doesn't confuse screen readers in almost all tools.

Removed a keyboard trap in the welcome tutorial.

The rest are removing accidental invocations of the FCKEditor over the

CKEditor and cleaning up some form items and other simple omissions.

I'm tracking things in a spreadsheet at [https://docs.google.com/spreadsheet/pub?](https://docs.google.com/spreadsheet/pub?key=0AmewqZFNbUdqdHE2Z2JrMik5VTY4R1h2UFJkRnFucVE&output=html)

[key=0AmewqZFNbUdqdHE2Z2JrMik5VTY4R1h2UFJkRnFucVE&output=html](https://docs.google.com/spreadsheet/pub?key=0AmewqZFNbUdqdHE2Z2JrMik5VTY4R1h2UFJkRnFucVE&output=html)

- Sakai 10 Accessibility Review Plans so far <https://confluence.sakaiproject.org/pages/viewpage.action?pageId=87950868>
 - Reporting: **Confluence** vs. Docs Vs. **E-Mail**
- Samigo and Time limit groups / Roster Groups - complaints from students that groups set up in Sakai course site for the purpose of providing extended time on quizzes and tests are visible to all participants in a course site when using the "Group Membership" view of the roster tool. Not new, but we are now receiving disability discrimination complaints about the issue. (An alternative with Sakai as-is would be to set a username and password for the test).
 - <https://jira.sakaiproject.org/browse/SAM-1988> - Samigo: For timed assessments: Ability to set time limits for individual students who may need longer due to cognitive needs

Roster2's features might have a configuration to not display a student's Group Membership via Profile2 and keep themselves hidden from Roster2's listing <https://confluence.sakaiproject.org/display/RSTR/Roster2>

- Drag and Drop - Upload multiple in Sakai 10 - this the canonical JIRA? <https://jira.sakaiproject.org/browse/SAK-25455>
 - <http://screencast.com/t/ekNmReVtiCyR>
 - <http://four.deluxe.ctools.org/portal>
 - aria-flow and accesskey
 - http://www.w3.org/TR/wai-aria-practices/#relations_flowto
- Status of "creating accessible content with CK Editor" document
 - In the 6 months-ago tool. Waiting to go into the new documentation tool.

JIRAs

- <https://jira.sakaiproject.org/browse/SAK-22571> - The All Grades table is two tables and a list coded to visually display as one table. Users of screen reading software will have a hard time navigating and understanding these tables. -- Test for 10 review
 - Related? <https://jira.sakaiproject.org/browse/SAK-22808> - DUPE
- <https://jira.sakaiproject.org/browse/SAK-22813> - Multiple buttons are part of an HTML heading when they should be separate on the All Grades page of the Gradebook tool
- <https://jira.sakaiproject.org/browse/SAK-22805> - The Assignments tool assignment Reorder tool is not accessible using screen reading software - Matt to look at Trunk
 - <https://jira.sakaiproject.org/browse/SAK-22799> - The Assignments Tool reorder function is not keyboard accessible - Matt to look at Trunk
 - <https://jira.sakaiproject.org/browse/SAK-22797> - Numerous sets of radio buttons or checkboxes lack a fieldset and legend on multiple pages in the Assignments tool.
