

Accessibility WG Teleconference Minutes October 28, 2015

Attending:

Matt Clare
Tiffany Stull
Neal Caidin
Candace Girard

Agenda:

Join us this week via BigBlueButton

rA11y Plan Update

Groups in the running:

Deque Systems, Inc.: Is preparing a scope of work (They're at EDUCAUSE and want to say hi to someone)

SSB bart Group: ongoing talks, previously shared demo of Sakai

WebAIM: Familiar with Sakai, using previous scope

Update on CK Editor accessibility checker

Brock University asked Longsight to do the work it is currently in production at Brock University.

Working on installation instructions <https://docs.google.com/document/d/127iux3d9qjvOS64M3MkVRymBLOi42Vf4JcSHYSorJc8/edit?usp=sharing>

Matt will be talking about this application of CKSource's innovative tool at the Sakai Virtual Conference <http://lanyrd.com/2015/sakaivc15/sdtrdt/> (Wednesday 4th November, 2015, 1:00pm to 1:30pm Eastern)

- Matt to record demo, now posted at <https://youtube.com/watch?v=i-pZ2eOjCUo>

Collective QA:

Run through using screen sharing and BigBlueButton some accessibility testing/verification:

Used OSX Keyboard Viewer (System Preferences > Keyboard) -- could have used Keyboard Shortcut for Windows Accessibility items = Windows Key + U

The WAVE (<http://wave.webaim.org/>) toolbar/plugin was useful for spotting issues.

Suggested items:

<https://jira.sakaiproject.org/browse/SAK-29474> Keyboard navigation is broken (still broken)

<https://jira.sakaiproject.org/browse/SAK-29084> Site Info table needs to be less verbose (fixed!)
