

OSP Design and Development (2.6)

Schedule

OSP 2.6 will be synchronized with the Sakai 2.6 release with a current target release Spring 2009.

A short summary of OSP 2.6 changes is described at [Sakai 2.6 Overview](#).

Overview of Changes Implemented for Sakai 2.6

Major:

- SAK-14417 - Redesign Portfolio User Experience
- SAK-8638 - Ability to edit and delete feedback and evaluations
- SAK-10139 - Aggregation of Evaluations across sites via My Workspace
- SAK-11545 - Better group awareness and filtering in Wizards tool
- SAK-12154 - Ability to apply an OSP Style to more screens of a Matrix
- SAK-13406 - Ability to control allowed general and item-specific feedback (0, 1, many) in Matrices and Wizards

Minor:

- SAK-11449 - Adding contextual cues to audience selection pages
- SAK-12101 - Ability for learners to review their own submitted materials more easily within a cell
- SAK-13192 - Including inviter's email address in portfolio sharing notifications
- SAK-13410 - Moving some Matrix styling to CSS to allow Style to adjust more UI
- SAK-14096 - Matrix name configuration after publication
- SAK-14214 - Optional sharing screen limit for users in a given role
- SAK-14279 - Avoid wasteful calls to resolveUuid
- SAK-14280 - Improve efficiency of form handling by caching schemas
